No PII until you accept

You see the category, area, and matter type — never the client's identity — until you take the referral.

Higher-intent by design

Post-arbitration clients have already committed to resolving their matter. They're ready to hire.

Fees shown are current base referral fees and illustrative post-arbitration figures at a 200% multiplier; actual pricing is set in your account. Not a solicitation for fee-splitting for legal services. · attorney.plus/for-attorneys
